

Healthy Schools Programme

Our school is part of the Kensington & Chelsea Healthy Schools Programme and for the past 3 years we have been awarded their Gold standard. This programme aims to recognise good practice in school and encourages a holistic approach to promoting the physical and emotional well-being of pupils, staff and parents.

Our long term goal is to provide the children with the knowledge and understanding they need in order to be able to make their own informed decisions for a healthy lifestyle. As part of this commitment we do not give out birthday cakes for children's birthdays. we are a completely nut-free environment because we have several children with nut allergies.

Children are encouraged to drink water during the day, preferably from their own bottle brought from home, which can be refilled in school. Each class has drinking water and cups are made available.
